EXISTING SYSTEM

- Whenever we implement new system it is developed to remove the shortcomings of an existing system. The computerized has more Edge over the manual system. As we are doing a project on “COLLEGE MANAGEMENT”. So firstly we will introduce the existing system, the existing system is based on manual system, which takes lot of time to get performance of the test. It has the following disadvantages:

PROPOSED SYSTEM

- We have developed new system, which is based on computer in which the student used to give test on the computer by simply clicking the answers. It is most reliable & time saving system while conducting some entrances test.
